PROFILE

I am a final-year Information Technology student with a strong passion for system development and web development. I have hands-on experience with programming languages such as Python, C#, HTML/CSS, and SQL, and enjoy building functional, user-friendly solutions that solve real-world problems. My academic background has provided me with a solid foundation in software engineering, database management, and full-stack development. I am a quick learner, a team player, and always eager to apply my skills in a practical environment. I am currently seeking opportunities—such as internships or graduate roles—where I can contribute to innovative development projects and continue growing as a developer.

Languages

- English
- Sepedi
- IsiZulu
- Setswana
- Afrikaans

TECHNICAL SKILLS

Programming Languages:
- Python
- C#
- HTML
- Java
- SQL

EDUCATION

NORTH WEST UNIVERSITY
2023– Present

Bachelor of Science in Information Technology

SOFT SKILLS

Interpersonal & Teamwork:
- Strong communication skills
- Ability to collaborate in group projects
- Open to feedback and continuous learning

Problem-Solving & Critical Thinking:
- Analytical approach to debugging and logic errors
- Able to break down complex tasks into manageable steps

Work Ethic & Adaptability:
- Time management and meeting deadlines
- Quick learner and adaptable to new tools or technologies
- Self-motivated and goal-oriented

Creativity & Innovation:
- Ability to build user-friendly and visually appealing interfaces

- C++

Web Development:
- Front-End: HTML, CSS
- Back-End: C# (ASP.NET)

Databases:
- SQL Server
- MySQL
- Database Design & Normalization

Other Tools & Technologies:
- Git & GitHub (version control)
- Visual Studio / VS Code

- Creative thinker in developing system functionality
